

BOARDER HELD FOR THE CRIME

Zanesville Man Charged With Attempt to Poison Family

ARSENIC IN THE COFFEE

Dose Was too Large and Four People Who Drank Beverage Were Saved.

Zanesville, O., July 26.—As a result of a quiet investigation by Uro-eccator Ribble of the poisoning in the A. T. Elliott family, cemetery drive, July 6, Carl Ramsey, 32, a painter and paper hanger of this city, and a former boarder in the Elliott family, was arrested at 5:15 o'clock Tuesday afternoon at his boarding house on West End avenue by Deputy Sheriff Theodore Roll. He is now lodged in the county jail to await a hearing on the charge of administering poison by placing arsenic in coffee with intent to kill A. T. Elliott.

The poisoning trial will be most sensational as evidence will be introduced which will attempt to show that Ramsey was actuated by a spirit of revenge after having been reprimanded for being drunk at various times. The testimony is also expected to show that Mr. and Mrs. Elliott and Mr. and Mrs. Charles McCold, their relatives were made violently ill by the poisoned coffee; that the children, who did not drink any coffee were not affected, and that Ramsey, who usually drank from two to four cups of coffee at every meal, refused to partake of any on the evening of the affair.

Ramsey declined to say anything to the deputy sheriff when he was arrested, except that he would go along willingly. At the jail last evening in an interview with a Times-Recorder reporter Ramsey said he had nothing to fear, and that is why he staid in town after he knew that he was suspected, and also that he was sick from Thursday until Monday.

The arrest was expected by members of the Elliott household, who knew of the prosecutor's investigation, and assisted him in every way. The affidavit was filed at 9 o'clock Tuesday morning in 'Squire J. B. Carson's court, but was not served until later, in order that Ramsey could be apprehended at his boarding house without any trouble.

It is claimed that Ramsey is a drinking man and that he had been drinking on the day of the alleged poisoning. When Mrs. Elliott served the supper she noticed a white substance on the top of the coffee, but supposed that a little flour had been spilled in the coffee. She scooped it out and then served it. She and her husband became ill, and so did the McColds, while the children, who drank none of it, escaped. The four persons had severe vomiting spells, and this saved their lives.

It is claimed by the officials that Ramsey did not drink any coffee at the meal, although he had been in a habit of partaking of the beverage. Further the prosecutor claims that when asked if he didn't want any coffee Ramsey replied: "No, I don't want any of that d—d stuff." A dog lapped up some of the coffee after it had been thrown out, and he also vomited.

Elliott told the prosecutor that he saw Ramsey standing by the stove twice that afternoon while the evening meal was being prepared. The telephone is also near the stove, and Ramsey said he was finding a telephone number, but he did not tell he "called Ramsey down" for getting phone to anybody that afternoon.

Elliott also told the prosecutor that he could not board at the home any longer. Ramsey is alleged to have said he would be revenged.

After the people became ill Ramsey left the house when he heard a doctor was summoned and couldn't be found. However, he returned at 1:30 the next morning and stayed for a few hours and then came back on Friday night. Saturday he was told to go. The Elliotts say that Ramsey never ate anything in the house after the alleged poisoning happened.

A sample of the coffee was saved by the family and it was analyzed by a physician. He found that it contained a very large quantity of arsenic, and the four people are alive today because the dose was too large.

The penalty upon conviction is from three to fifteen years in the penitentiary.

When a reporter called on Ramsey at the county jail he claimed he did not know upon what charge he had been arrested. When told he was

PRESIDENT SIGNS THE RECIPROCITY MEASURE

Washington, July 26.—President Taft this afternoon signed the Canadian reciprocity agreement.

Just when the Canadian reciprocity agreement will become operative now that it has been finally ratified into law by Congress and President Taft, was a question upon which there was a division of opinion with authorities here today.

As agreed to, the measure contains two sections. The first sets forth the full dutiable and free list articles to be sent under the terms of the bill from this country to Canada, and the dutiable and free lists of articles sent from the Dominion to the United States.

The second section provides for free entry into the United States from Canadian provinces that do not enforce any export or other restrictions, on shipments to the United States of wood pulp, newsprint and other paper and paper board manufactured mainly of wood pulp and valued at not more than four cents a pound.

Senator Reed Smoot, (Republican, Utah), one of the highest authorities on the tariff in the Senate, today asserted that the first section of the bill could not take effect until it had been passed by the Canadian parliament.

"As to section 2," he said "there is a strong opinion among senators that it will take effect on the passage of the bill by Congress, even if Canada, at that time, has taken no action on the reciprocity measure."

In the first section of the agreement is a provision setting forth that the dutiable and free lists of articles

charged with administering poison to Mr. Elliott, he replied: "I can't help it," and then continued, "I will do all I can to fight it."

Ramsey appeared unconcerned at his arrest. Just before he went to bed he said: "I did not know until the Monday following the poisoning that I was suspected. At that time Mrs. Elliott came to me and said she didn't care to keep boarders any longer so I left."

"On the night they were sick I was sick too, and continued that way for several days. I was sick from Thursday until Monday and only had a sandwich to eat in all that time." He claimed he did not have a doctor to attend him.

"I have nothing to fear. That is why I staid here after I learned I was suspected of giving them poison," he concluded.

Ramsey is married but does not live with his wife.

GOVERNOR MAKES BOXING LEGAL IN EMPIRE STATE

Albany, N. Y., July 26.—Boxing in New York state was legalized by Gov. Dix when he signed the bill of Senator Frawley which places the sport under the control of a state commission to be named by him. The commission of three members will issue licenses to clubs and regulate all boxing contests. Fights can be pulled off only with eight ounce gloves and clubs which permit fake bouts will have the licenses revoked.

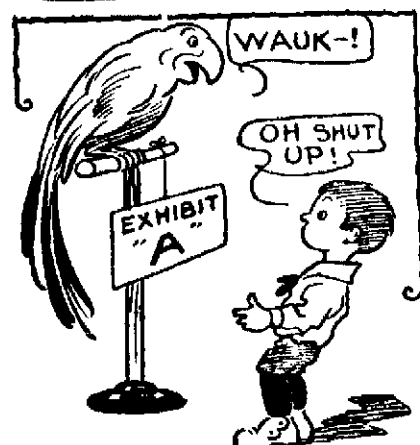

The governor signed the measure late last night.

FORMER GOVERNOR ATTACKS PAPER

Washington, July 26.—In order to discredit the Chicago Tribune, Lormel's old-time enemy, Judge Haney, counsel for the Illinois senator, today introduced in the evidence before the senate investigating committee, a long statement made by former Governor Altgeld in granting a pardon to a Tribune employee. Altgeld's statement attacked the Tribune and its employees, declaring that the paper had avoided paying \$25,000 a year to the school fund for rental of the school lands upon which their building stands. Failure to pay their just share of taxes was also made in the statement.

Lots of men are getting along in years without getting along very well in any other direction.

WHAT IS IT?

What mythological deity?
Answer to Tuesday's puzzle—Morocco.

from Canada "shall take effect whenever the President of the United States shall have satisfactory evidence and shall make proclamation" that the dutiable and free lists of the United States goods sent into Canada are recognized by the Dominion.

Section two of the United States bill, is a plain statute that requires no action by the president to carry it into effect.

Senator Nelson, (Rep. Minn.) has said it is "utterly outside the scope of the reciprocity agreement."

The opinion of Senator Cummins, (Rep. Iowa) was thus expressed: "The difficulty about the present arrangement is as the Senator from Minnesota has said. For some reason or other the House has segregated section two from the remainder of the bill, and it is doubtful whether it will be controlled by the provisos and the conditions of the previous part of the bill. If it is not so controlled then it is not reciprocal, and we would be in danger of the favored nation clause."

An apparent defect in the United States bill was pointed out by some Senators. If Canada should, some day, repeal the Canadian bill, the United States law would remain in force until congress could take action.

It was several times suggested that the bill be amended so that it would be automatically repealed in the event of the repeal of the Canadian law by the Ottawa parliament, but the general belief was that the conditions under which it might operate to the disadvantage of the United States were beyond the range of possibility.

MOTHER RETURNS KIDNAPED CHILD TO ITS FATHER

Marion, O., July 26.—Pretty six-year-old Rilla Haines, kidnaped last June by her mother from her father, M. A. Haines of St. Marys, Pa., is to be restored to the custody of her father, who is expected here today. The mother, arrested for neglecting the child, confessed that she had kidnaped her and said she would gladly surrender her, because she can get along better without her.

A few days ago the little one went to a neighbor's home and told a pathetic tale of poverty. She said she was hungry and the neighbors gave her food. Her mother whipped her for telling. The Humane Society investigated and the mother's arrest followed. It then developed she had deserted her husband and children, but later returned and abducted the girl.

Mrs. Haines declares she will not return to her husband.

SEN. POMERENE

Urges Senate to Drive Loan Sharks Out of the District of Columbia.

Washington, July 26.—Saying that greedy money lenders, with insatiable desire for more opportunity to prey upon the poor and unfortunate, were even going to the limit of debauching state legislatures, including Ohio, Senator Pomerene today called upon the senate to drive the loan sharks from the District of Columbia. The senate has before it a bill allowing money lenders to charge 1 1/2 per cent a month. The senator objects to a higher rate than 8 per cent.

BUSINESS WANTS.

The opportunities of the Advocate Want Columns are ofentimes worthy of careful consideration.

Many business men call upon the Advocate Wants to aid them in the solution of business problems.

The Advocate Wants are most effective in locating just the kind of workers that are most needed, and often they put business men in touch with investors who are glad of the opportunity of securing a part interest in an established business.

The Advocate Wants, too, are the medium through which businesses are bought and sold. They locate selling agents, aid in the opening up of new territory, in the distribution of manufactured products and locate competent representatives in various localities.

The Advocate Wants play a most important part in modern business.

Many business men have found the Advocate Wants of inestimable value in meeting business emergencies that arise from time to time.

IN BARREL OVER FALLS OF NIAGARA

"Bobby" Leach Makes Perilous Trip and Lives to Tell Tale

FORBIDDEN BY POLICE

Leach Started Down River in His Steel Barrel Three Miles from Brink.

Niagara Falls, N. Y., July 26.—"Bobby" Leach of Niagara Falls, made a trip over the Horseshoe Falls in a steel cask yesterday afternoon, and lives to tell the tale of an experience more thrilling than any of his previous feats, which include several trips through the Whirlpool rapids, a number of balloon ascensions, a ride over the Seneca Falls in a barrel and a leap off the upper steel arch bridge over the Niagara river with a parachute.

Leach had been forbidden by the police to start either from this city or the Canadian city and was forced to drop into the water at LaSalle, four miles up the river on the American side.

At one o'clock he put out in a motor boat with the barrel tied to the stern. The condition of water and weather was adverse to the trip, but he was determined to risk it. When the launch reached a point a little to the west of Hog Island, three miles above the brink, Leach crawled into the cask and the rope was cut.

The barrel floated slowly down the river about 200 feet from the Canadian shore, and at 3:10 o'clock passed the plant of the Electrical Development Company, a mile above the brink, bounding perilously over rocks and waves. Two and a half minutes later it passed the great splash to the basin below. It appeared on the surface of the water in the basin less than a minute with both ends missing.

It drifted about in the basin for 20 minutes before Frank Bender swam out with a rope from the Canadian side, made it fast to the barrel and towed it ashore.

The bulkhead was ripped off and Leach removed. He was bleeding from a deep gash on the side of his face and it was thought his right leg was broken. Later it was found to be only sprained. He was removed to his home where he will be confined by his injuries for several weeks.

"I want no more of it," he said today. "Once is enough. But they have got nothing on me." He added probably referring to Mrs. Annie Edson Taylor, who made the same journey on October 24, 1901. "Like to killed me the way I was tossed about before I hit the brink," he continued.

Leach had the barrel built especially for the trip. It is made of sheet steel three eighths of an inch thick. It is seven feet long and three feet in diameter. Wooden ends make the cask over ten feet long.

LILLIE AFTER NOTORIETY FOR THEATRICAL ACT

New York, July 26.—Lillian Graham's latest attempt to attract publicity to her failing theatrical act, has failed. When she showed today at the local theatre where she with her shooting companion, Ethel Conrad, has been appearing, she was greeted with complaints of "coarse work" and was told her engagement terminates Saturday night. She told a story of being held up by a "dark man with a bag" who kidnapped her in an automobile and of coming to her senses in a Poughkeepsie hotel. The clerk of the hotel says she was all right when she came there and spent her time in a room keeping a corps of bell boys busy running errands.

Never size up a man from his actions when he knows he is being watched.

CONGRESS AGREES ON ADJOURNMENT

Washington, July 26.—Leaders in the house and senate today were almost unanimous in their belief that the Democratic caucuses in both branches of congress last night forecast adjournment of the present session by Aug. 15, if not sooner. Under the agreement last night, final votes on the wool schedule must be taken tomorrow. The Democratic senators will continue their conferences tonight.

ADMIRAL TOGO SAILS FOR AMERICA WITH MESSAGE OF GOOD WILL FROM THE PEOPLE OF JAPAN.

London, July 26.—Admiral Togo, the doughty Japanese sea dog, has sailed for the United States, bearing a message of good will to the American people. Before leaving he stated that the peace treaties between Great Britain and Japan and Great Britain and the United States would do much toward guaranteeing world wide peace for many years. He also stated that there were no differences now existing between Japan and the United States. The photo shown herewith was taken of Togo and General Nogai in London, where they represented Japan at the coronation.

LIFE SAVER DIED OF BROKEN HEART

St. Louis, Mo., July 26.—Willis L. Lee, who saved seven lives in a service of four years in the police department and then was dismissed on minor charges, is dead today of a broken heart.

One of Lee's most daring rescues was performed in March, 1909, at the winter quarters of the Idce circus. Lee found a trainer lying bleeding in a honess' cage and the lioness crouching for a death spring. Lee rushed into the cage, pushed the trainer to the door and sprang back himself as the lioness lunged.

CO-OPERATIVE STORE WILL CLOSE DOORS

Lacrosse, Wis., July 26.—The co-operative store of the Wisconsin Consumers' League here, which was opened by the Trades and Labor Council after urging by local Socialists, will be closed this week.

The stockholders will make money, it is asserted, but the failure of union men to buy at the store established to beat the alleged local "grocery trust" is responsible for the closing of the doors.

YOUNG WOMAN PREFERS CHARGES AGAINST PASTOR

Huntington, W. Va., July 26.—There was a great commotion in the senate congregation of the Presbyterian church at Williamson, near here, when Rev. R. B. Watkins, the young pastor, was arrested at the request of the authorities at Richmond, Va.

In that city Miss Carrie Bedell, a comely young woman, has preferred serious charges against the minister. Rev. Watkins has filled the pulpit at the Presbyterian church in Williamson for one year, in the absence of the pastor. He went there from the Theological Seminary at Richmond, Va.

The young clergyman denies the charges, and says he is ready to return to Virginia without requisition papers.

RECOVERS CHILD

Middletown, O., July 26.—A woman living in this city as Mrs. Price was arrested here today and a child 8 years old, taken from her. Leo Price of Pittsburg, Pa., the father, claims the woman kidnaped the child. The child was restored to the father.

IS KANSAS PROHIBITION?

Topeka, Kan., July 26.—Governor Stubbs yesterday began an action in the Supreme court to force Attorney-General Dawson to summon J. E. House, a local newspaper man, to testify about violations of the prohibitory law.

House in a signed article stated that he saw liquor sold over a bar in a Kansas town. Governor Stubbs asked that the newspaper man be called upon to give specific information.

The Attorney General refused, and a suit is the result.

TEXAS CANNOT VOTE AGAIN TILL JAN. 1913

Dallas, Texas, July 26.—It having been settled that the anti-prohibition majority is between 5,000 and 6,000, the next fact is that no call for another submission election can be issued before the next regular session of the Legislature, which is not until January, 1913. Before that time there will have been an election of all state officers and members of the Legislature.

The present Legislature is "prohibition" by a small majority in both House and Senate.

BLOOD POISONING RESULTS FROM A BARB WIRE SCRATCH

P. M. Brill, ex-county recorder, whose home is near Beech Corners, is suffering with a very sore hand. Some days ago he was repairing a barbed wire fence, when one of the rusty barbs scratched his right hand. Mr. Brill at first paid no attention to the matter, but in a short time the hand began swelling and the next day it had attained double its size, blood poisoning having developed. A physician attended to the injury and the swelling was soon reduced. The wound is rapidly healing and Mr. Brill thinks it will only be a short time before he can use it again.

NAT GOODWIN FREE TO MARRY AGAIN

New York, July 25.—Nat Goodwin is today free to enter again in the matrimonial handicap outside of the state of New York. Justice Bischoff today signed the final decree. Edna Goodrich, the divorcee, may resume her maiden name and marry again, but Nat is forbidden to wed again within the jurisdiction of the court. The decree does not mention alimony.

RIFLE IN HANDS OF A MADMAN

Injures Eight Chicagoans and Holds 25,000 People at Bay

INCIDENT REVEALS HERO

Newspaper Reporter Faced Deadly Rifle and Grappled With the Lunatic.

Chicago, Ill., July 26.—One man, armed with an army rifle, yesterday converted the heart of the loop district into a congested section of Wild West, in which a surging mob of 25,000 men and women fought to escape a rain of bullets.

By a chain of fortunate circumstances but eight persons were struck by the insane sharpshooter. But the combination of emotions provoked by the lone rifleman was sufficient to satisfy the average human being's thirst for thrills for a lifetime.

Among the injured are: William Kraft, 17 year old, Lincoln street; shot in leg.

I. C. Hunt, 30 years old; shot in right leg; bone splintered; amputation necessary.

J. E. Darling, shot through palm of left hand.

The injured were rushed to Iroquois Hospital, a mounted policeman taking Kraft on his horse. The others were sent in ambulances.

N. Husian, a Hindu, who once served in the British army in India, was the raider who had planned to kill everybody who appeared within his range of vision.

Stationing himself at the main entrance of the Chicago opera house, at 3 o'clock in the afternoon, he lifted his rifle to his shoulder and picked off his first victim, a boy of 17 years.

Then, while the echoes of the discharge were reverberating through the canyons of the loop, a dense throng of men and women sprang up as if by magic. Into this crowd four more shots were fired in quick succession.

That the Hindu was a dangerous fanatic was evident from an examination of his belongings a few moments after he finally was overpowered. In one pocket was an incoherent but threatening letter addressed to President Taft. In another was a letter in the same vein to the British consul in Chicago.

Like all dangerous situations, the incident revealed a hero. To P. F. Lowder, a newspaper reporter, belongs the credit for facing the deadly rifle and its insane owner and rendering him powerless. A moment later policemen rushed in and assisted the reporter in disarming and overpowering the madman.

Husian was first seen by a policeman at Jackson Boulevard and Clark street, sauntering north in Clark street, rifle in hand. The fact that he wore an old khaki uniform, however, convinced the policeman that he was a soldier taking part in the military tournament, and for that reason he paid no attention to him.

At Clark and Washington streets the swarthy rifleman paused as if uncertain which way to turn. Then he walked west a few feet and paused at the east side of the broad entrance into the Chicago opera house.

Pedestrians on the other side of Washington street say that he looked up and down the street at the throng of afternoon shoppers and promenaders, then slowly lifted the weapon to his shoulder. An instant later the first shot had been fired.

William Kraft, an office boy, who was walking on the other side of the street, shot through the leg, paused and looked at his assailant, unable to realize just what had taken place.

Just as the fifth cartridge was expelled from the rifle barrel, Lowder seized the arms of the Hindu and pushed the barrel down to the sidewalk.

Taken completely by surprise, the insane man, who was nearly twice the size of his slight antagonist, did not resist for a moment. Then, seeing the diminutive size of the reporter, he promptly wrested the rifle from his grasp and prepared to tell him with one blow of the weapon.

But Lowder was not to be crushed.

NEWARK WON AND LOST GAME TO WHEELING TEAM AMID BALL PARK RUINS

Goldrick Pitched Two Hit Game, But Failed to Score
Shutout When Durham Hit Ball Over Fence in the
First Game—Gilbert Quits After Argument
With Queisser and Hale Does Good Work
As Emergency Pitcher.

Amid the ruins of Sunday's accident and Monday morning's conflagration, Newark and Wheeling clashed in a double header at Wehrle Park Tuesday afternoon. The two games were played under difficulties for both teams though Newark was the more handicapped of the two teams. New uniforms, gloves and shoes were worn by each player and as no time was used to break in the equipment, the movements of the players were hampered considerably by the stiffness of the new property.

The first game through the excellent pitching of Billy Goldrick who allowed but two hits. Unfortunately for Billy, one of these was a home run over left field fence, hit by Outfielder Durham. One man was on the base paths ahead of Durham and thus two runs were scored, which saved the Wheeling bunch a shutout.

Some good baseball featured the first game of the afternoon, both Goldrick and Beatty doing nice work. Goldrick had the advantage as he was in better form.

Newark's first run came in the fifth inning when two men were sent home through consistent hitting and a slight wobble by Sager at third. McDonough opened with a roller to short which retired him at Servatius' corner. Goldrick followed with a smash to Sager, which hit his shins and carried over into foul territory. Goldrick setting two bases on the hit. Ragan dumped one down to Sager, a difficult chance Sager threw the ball high over the first baseman's head, scoring Goldrick. Ragan went to second and Murray went out. Jewell to Servatius. Pendry drove a pretty single to center, scoring Ragan. The manager stole second but died there when Callahan, who took Wickland's place in center, fouled out to Welsher.

In the sixth inning, with Gray disposed of, Craven was hit by a fast in-shoot and took second on Kihm's hit to Sager. McDonough singled to left, scoring Craven. Kihm and McDonough advanced on a wild pitch but both died on the paths when Goldrick fanned.

Wheeling's two runs came in the seventh when with one out, Servatius drew a pass and Durham, who followed, lifted one over left field fence. This home run was the second and last hit of the game but it came at the right moment and saved the visitors from a shutout.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

Weak and unhealthy kidneys are responsible for much sickness and suffering, therefore, if kidney trouble is permitted to continue, serious results are most likely to follow. Your other organs may need attention, but your kidneys most, because they do most and should have attention first.

The mild and immediate effect of Swamp-Root, the great kidney and bladder remedy, is soon realized. It stands the highest because its remarkable health restoring properties have been proven in thousands of the most distressing cases. If you need a medicine you should have the best.

Sold by druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Birmingham, N. Y. Don't make any mistake, but remember the name, Swamp-Root, and don't let a dealer sell you something in place of Swamp-Root—if you do you will be disappointed.

When writing, be sure and mention this paper. Regular fifty-cent and one-dollar size bottles for sale at all drug stores.

WICKLAND IS PART OF DEAL

Cincinnati Reds Give Newark Player
and Cash Consideration for
Pitcher Jack Compton.

A telegram to the Advocate from Dayton states that Outfielder Wickland of the Newark team was included in the trade of Pitcher Jack Compton, whose sale to Cincinnati was announced from Cincinnati last night. Wickland goes to the Reds as part payment for the crack pitcher. This is a sad blow to the Newark organization, as the little outfielder was counted upon as a valuable asset. Cincinnati announced a few days ago that Wickland would not be recalled by that team and Newark officials thought they were fortunate in getting a good title to the little fielder.

GRAY IS BEST HITTER IN THE CENTRAL LEAGUE

Dolly Gray, Newark's big slugger, by a sensational spurt during the past week, managed to displace Spencer at the top of the league's clever hitters. Up to Friday's game Gray went twelve days without having missed an inning at least one hit each day and during that period secured twenty-four hits, or an average of two per day for the period. Gray's average at the close of Thursday's games was .354 and Spencer's .351.

Pendry, Newark's clever manager, had a big week on the bases and leads the punters with thirty-three. He has been in the game for a long time and is getting on in base stealing.

SECOND EFFORT TO BURN THE BALL PLANT

What is believed to have been a second attempt to destroy the remaining portion of the baseball plant at Wehrle Park was detected Tuesday afternoon through the prompt action of Groundkeeper McGinnis and others after the game with Wheeling. Nearly everyone had left the park and McGinnis was getting things into shape so he could leave. A spectator who was still at the park discovered a blaze under the third base bleachers, near where Sunday's accident occurred. The blaze had already communicated with the wood-work of the lower tier of seats, but had not gone long enough to do any serious damage. Numerous burnt matches on the ground immediately surrounding the place where the fire originated indicated that the attempt to fire the bleachers was deliberate. The evidence has been laid before the proper authorities and the investigation continues.

When Sager threw the ball over Servatius' head in the fifth inning yesterday, the big first baseman quickly recovered the ball and threw to third to stop a runner. Jewell ran in to take the throw and the ball hit him on the right arm near the shoulder. The little shortstop suffered considerable pain for a time, but was game to stick to the fray.

It might be good thing for a boy to outgrow his devilry as fast as he outgrows his trousers.

Good intentions are sometimes too good to be true.

Patience is a virtue that we always expect our creditors to possess.

EVANSVILLE PLAYERS QUIT; GET NO PAY

Evansville, Ind., July 26.—All but two of the players of the Evansville Central League team went on strike late yesterday and announced they would play no more games after the game yesterday with Dayton until their salaries, which they say are now about two months in arrears, are paid up.

COMPTON SOLD TO CINCINNATI.
Cincinnati, July 25.—Pitcher Compton of the Dayton team of the Central League was yesterday purchased by the Cincinnati team. The price has not been given out.

Miss Louise Hunter is entertaining with a bridge party this afternoon at her home in Buena Vista street, honoring Mrs. Herman Upham of Detroit.

The Wednesday Afternoon Sewing club will be entertained on Thursday afternoon of this week at the home of Miss Marian Welant.

The Trinity Sewing club will have for hostess this week Miss Alma Hilliard who will entertain the members at her home in West Church street on Friday afternoon.

The Whatsoever Circle of The King's Daughters will hold their annual picnic Thursday, July 27 at Mount Builders' Park at 3 o'clock.

A most pleasant surprise was given Mrs. Sarah E. Roderick at her home, one and one-half miles south of Clay Lick on Sunday, July 23, in remembrance of her fifty-ninth birthday anniversary. At the noon hour the well filled baskets were unpacked and placed on a table prepared for the occasion and all present partook of a delicious dinner.

Those present were: Mr. and Mrs. John Wilson and sons William, Alpha, Albert and Charles, Mr. and Mrs. Elmer E. Warman and children May, Earl, Ethel, Mary and John, Mr. and Mrs. William Roderick, Mr. and Mrs. Milton McFarland and daughter Hazel, Mr. and Mrs. Louis Fiale, Mr. and Mrs. Frank Guanciale, Mr. John Vermillion, Fred and Oscar Vermillion and Presley Roderick. At a late hour all departed to their home wishing Mrs. Roderick many happy returns of the anniversary.

On Tuesday evening Miss Mary Kureth entertained informally at her home in North Fourth street, honoring her house guest, Miss Lera Trovinger, of Coshocton.

Those present were Misses Lera Trovinger, Amy Kuster, Mary Keely, Anne Hohl, Loretta Dolan, Helen Ginter, Messrs. Edward Gilbert, Jack Evans, Ed Dunne, Bernard Fallon, Joe Dolan and Edward Kureth.

One of the prettiest children's parties to be given was that on Tuesday afternoon when little Miss Helen Cordray Davis of Franklin, Tenn., entertained a number of little friends at the home of her grandparents, Mr. and Mrs. G. W. Cordray, in West Main street. The afternoon hours were merrily spent by the happy children, and a picnic sup-

per was served, Miss Marjory Lawhead and Miss Juliette Besuden assisting Mrs. Cordray.

The small guests were: Felix Jones, Dorothy Swisher, Page Weston, Philip Sowers, Virginia Guthrie, Anna Guthrie, Sara Baird, Elizabeth Brown, Adeline Baker, Charlotte Knauss, Virginia Browne, Florence Thompson, Helen Fuller, Gladys Landorf, Susie Khunie, Ralph Allen, Thelma Mazey, Martha Grace Miller, Laura Bragg, Geneva Sprague, Hayward Bartholomew, Angela Kennedy, Esther Jones and Belle Kennedy.

The following formed a pleasant theatre party at the Auditorium theatre: Misses Agnes Murphy, Bertha Fanger, Florence Binder and Marian Alexander.

Miss Ruth Forty entertained the newly-organized Tennis Club last night with a slumber party, at her home in West Main street. After the business of the club was transacted, a jolly good time was had by the following girls: Misses Edith Deming, Esther Kessane, Edna Bright, Vera Deming, Kerene Monnette and the hostess.

On Tuesday evening the Licking Country club was the scene of a very enjoyable dance. These dances are given by the members of the club and have proved delightful events. A most enjoyable dance program was furnished by Stevens' orchestra, and with a large number of the members there was a number of out of town guests present.

STORY OF ANTARES.

In the south these nights about 9 o'clock one will see a fiery red star known as Antares. It is the heart of the scorpion, the planet constellation in the skies. Anybody can see the scorpion up there—can tell it by its wide-spread claws and its long tail. There is a story told of Antares that one will remember, doubtless, when he sees the star.

Away back in ancient times when the gods of mythology were running things Phaeton, the son of old Sun, got leave to drive the chariot of the sun on its day's course around the sky. Now it happened that Antares is close to the track on which the chariot is driven, and so, when the counsels neared that great fiery ob-

AN "ORCHID" WRAP WHICH CAUSED A SENSATION.

The color in this beautiful wrap shades from delicate lilac at the shoulders to a deep violet-mauve at the hem, the hem being of the lilac color, with rich embroidery in self tone and a slightly darker shade. The yoke portion is extended out to form hem in a two-yard width. The material is a new, soft-finished, very lustrous taffeta silk, which was dyed in this softly orchid color scheme by special order.

ject, they became frightened, and then Phaeton lashed them furiously and they reared and plunged so that the chariot upset and came near spilling the sun out upon the earth, but then Sol appeared, calmed the steeds, pulled Phaeton a little, and got the couriers on the right track, who he they have kept ever since.

The colors of Antares indicates that it is an old sun very much older than ours, that the planets which are circling about it have dried up, and that the whole system is now returning into its original star dust and primary energy, to begin over again the evolution of a little universe.

BRIDGE CONTRACT AWARDED WEDNESDAY

For Construction of the Hankinson Bridge Over Dry Creek and the Coffman Bridge Near St. Louisville.

At 1 o'clock Wednesday afternoon bids were opened by the County commissioners for the construction of the Hankinson bridge to span Dry Creek road, and the Coffman bridge to span the North Fork of the Licking River, near St. Louisville.

For the Coffman bridge the following bids were received for the construction of the bridge as a whole: George Grindie, \$1069.25; G. W. Lane, \$803.24; B. C. Patterson, \$733.24; A. R. Pitzer, \$335.00.

For the Hankinson bridge the following bids were received for the construction of the bridge as a whole: C. W. Lane, \$348.26; Frank Cush, \$330.50; B. C. Patterson, \$346.51.

The contract for the construction of the Coffman bridge was awarded to C. B. Patterson, and the contract for the construction of the Hankinson bridge was divided, C. B. Patterson being awarded the substructure and Frank Cush the superstructure.

AWARDED \$50,000 FOR CROSS COUNTY AVIATION FLIGHT

Brooklands, Eng., July 26.—After the most thrilling contest in the history of cross country aviation, Capt. Connaught, flying under the name of Andre Beaumont, today won the \$50,000 prize offered by the London Daily Mail for a successful flight around England and Scotland. Beaumont, a fellow countryman of Beaumont's, will get second prize, the two Frenchmen having distanced all competitors. For miles around the route they flew neck and neck, then Beaumont's machine, a minute Beaumont's total time for the 1910 mile race was 22 hours and 28 minutes.

NEW ARCHBISHOP OF PHILADELPHIA

Philadelphia, July 26.—With all the pomp of a regal coronation the Most Rev. Edmund T. Prendergast was today elevated to the office of archbishop of Philadelphia, succeeding the late Archbishop Ryan. The ecclesiastical procession of priests and prelates numbered more than 600.

EXPOSITION A STIMULANT.

There is some question whether an exposition is a real help to a city, but in San Diego, which is preparing to hold one in 1915, the building operations have amounted to \$2,352,000 in less than six months of 1911, and for a city of some 40,000 people, that is admitted to be going some.

The County Fair Cucumbers

By M. QUAD

Copyright, 1911, by Associated Literary Press

When it was known that George Huggins, old bachelor, was paying his attentions to Lucy Smith, old maid, the people of Crowville said that it would be a good match on both sides. When it was known that there was an engagement there were many earnest congratulations.

Mr. Huggins had a little home of his own and kept bachelor hall. Miss Smith had a little home of her own and enjoyed a small income. The principals had known each other for years, and love had come about through an accident. Miss Smith was at her well one morning to draw a pail of water when she leaned too far over the curb and fell in head first. Of course as soon as she could get her head above water she began to scream. Mr. Huggins happened to be passing the house and heard her and went to the rescue. She was very wet and very scared, and in the excitement of the moment she fell on his neck and called him dear George. Mr. Huggins was also somewhat excited and the first thing he knew found himself calling her dear Lucy. After that Cupid's work was easy.

The marriage day had not been set, but things were gliding along, when the county fair committee came out with the list of premiums for the fair fall, still many weeks away. It so happened that Mr. Huggins had made up his mind to grow a big cucumber for the fair. He had grown a monster the year before, but had not entered it. And it so happened that Miss Smith decided to do that selfsame thing. Of all the things in her garden, which she worked herself, cucumbers seemed to do the best of any vegetable. It was one evening when they sat on the front doorsteps in their happiness that George mentioned the cucumber business and declared he would take the premium over the whole county.

"Why, George, I'm also going to raise one," was replied.

"All right, but you'll waste your time."

"I know I shan't. I grew one over a foot long last year."

"That won't be enough this time. I think you'd better grow squash or tomatoes. I don't think we should compete against each other."

The matter was argued good naturedly, but no decision arrived at.

"Lucy, dear, I ask this as a favor of you," said Mr. Huggins as he took her hand.

"George, dear, you can raise onions," was the reply.

"But I saved your life when you fell into the well."

"But the water wasn't over my head, and I believe I could have climbed out anyhow."

"I wouldn't have believed you were so stubborn."

"Nor I of you. I've always heard you were open to argument and were seldom in the wrong. Perhaps we have made a mistake?"

"I hope not, but it looks queer to me that you stick out for cucumbers the way you do."

"And it looks just as queer to me, George, do you think a knight of old would have been as thickly as you are? No, sir—he would have told his lady love to go right ahead and given her all sorts of encouragement."

"But I want to beat old Deacon Swift. He's taken the prize on cucumbers for the last three years."

"And he's the very man I want to beat. When his hog roared up my garden last year he wouldn't pay a cent damages, but told me to sue and be hanged."

When Mr. Huggins left for home that night there was a chilliness in his parting. He was still sticking on cucumbers. The question had become a broad one. His whole future happiness was at stake. He walked slowly down to the gate, hoping to be called back and told that Lucy had relented, but there was no calling. She was also realizing that the question had broadened. Next evening he went down and sat beside the mill dam until a late hour instead of keeping his usual tryst. It was so the next evening and the next. Then it became a matter of gossip that the engagement was off.

As time went on the cucumbers grew and grew. They grew by day and grew by night.

And at last, when the day came that their stems were cut and they were carried off to the fair on pillows, one could detect no difference between them. They were twins. It was said that the cucumber committee would have split the prize, but it didn't turn out so. Deacon Swift drove into the grounds with a whoop and a holler and unloaded a cucumber that took the cake by ten points. Mr. Huggins saw the unloading. So did Miss Smith. They were aware of each other's presence, but hadn't spoken. Now they began to edge around nearer and after awhile found themselves face to face.

"He's a mighty mean man!" exclaimed George.

"Perfectly contemptible!"

"I feel sorry for you after all your trouble."

"And I for you."

"I want to get even with the deacon and I know of but one way. Will you help me?"

She took his arm, and they walked away, and next morning there was a wedding. Some folks have to go through just so much trouble to find happiness.

ENGLAND STARTS WAR PREPARATION

London, Eng., July 26.—The semi-official announcement today that David Lloyd George, at present chancellor of the exchequer, may soon be made secretary of state for foreign affairs, caused a distinct shock to conservative Englishmen. It was at once realized that George's speech of last week, in which he practically seized notice on Germany that England would not tolerate German aggression in Africa had official sanction.

The entire nation today practically accepted the cancellation of the Norwegian cruise by the Atlantic fleet as an act of war preparation.

NEW YORK PHILANTHROPIST TAKES UP BOY SCOUT WORK.

Mornay Williams, lawyer and philanthropist of New York, has become interested in the boy scout movement and is a member of the national council of the Boy Scouts of America. Though Mr. Williams is a busy man, being chairman of the New York child labor committee, vice chairman of the layman's missionary movement, and member of the executive committee of the Prisoners' Association of New York State, as well as being engaged in many other activities, he highly approves of the boy scout work, and is giving some of his time to it. Concerning the new manual, he says: "I want to express my warm and hearty approval of the handbook. It seems to me to be an exceptionally good piece of work, clear cut and concise, sound and helpful."

ARE EXPECTING A GOOD TIME AT CAMP PERRY

Company G of this city, under command of Capt. Verne Pilest, will leave Saturday night for Camp Perry. The militia boys will report at the East Main street armory at 9 o'clock. They will leave over the Pennsylvania for Columbus and over the Hocking Valley from the Capital City, spending eight days in camp during which time they will receive instructions in drill and army maneuvers, and will also devote considerable time to rifle practice on the shooting range.

Company G has a full complement of men and they are all looking forward to a good time. While it is true that they will be kept quite busy at times yet they will have plenty of recreation. This year's camp is expected to outdo all others and the Newark militiamen are all looking forward to a good time.

Heart and Home Talks

Vacation Chats.

A Camera Vacation.

THE person who is fond of photography can have a most enjoyable vacation if he will indulge himself just as much as he pleases in his hobby. By this is not meant simply to take his camera with him on his vacation and snap pictures as he goes, but to center his vacation around his camera.

It is not necessary to go away from home to do this. The money usually spent on tickets for traveling could be spent in purchasing long-wanted books or materials—a fine lens, perhaps—which before had seemed beyond one's means. And, if so much money is allowed for a vacation, and it is now taken for this purpose, the procedure is not extravagance.

Then a study could be made of some special kind of photography—indoor work, or flowers, or animals or birds, whatever most appealed. If the whole vacation were spent outdoors studying nature with a camera, such a vacation to a camera enthusiast would be a delight. Or if one desired to perfect himself in some of the mechanical parts of the art such as developing or printing, the vacation leisure could be taken for this. All this could be done right at home, so that all the vacation allowance could be spent on sport with the camera itself.

The one fond of photography can find plenty of pleasurable ways to pass camera days. And such a vacation would be surely profit one physically and mentally as traveling or pleasuring in other ways. For what the mind delights in brings refreshment and exhilaration to the body. So that a vacation of this sort is as stimulating and restful to the camera fiend as any other kind would be.

And though one does not take a vacation with the idea of making money, rather the reverse, proficiency in photography is not a bad investment. Though one may not turn it to financial account on this particular vacation, later, or perhaps on another vacation, it may yield a good harvest of dollars. A woman who had made herself proficient in photography sold almost a hundred dollars' worth of pictures upon her return from a trip to Europe. This was rather a remarkable feat, for pictures of Europe are so common one would not think they would be in demand. But her pictures were so charming, so artistic, so unusual, that everyone who saw them went wild over them. She had quite an ordinary camera, too; just a small one that cost but a few dollars. So the camera vacation will yield pleasure to the camera enthusiast and perhaps later, profit.

ADVOCATE'S
ANNOUNCEMENT

To Democratic Candidates
for City Offices at the
Coming Primary
Election.

The Advocate will not
publish any paid announce-
ments of candidates for city
offices at the primary elec-
tions to be held this year.

The paper deems it neces-
sary to make this departure
from what has been its life-
long custom in consequence
of the unusual existing con-
ditions at this time.

The names of worthy can-
didates will be printed in
these columns from time to
time as matters of news
only, but paid announce-
ments will be excluded abso-
lutely.

The Advocate's Notice.

(Delaware Gazette.)
Things have become so interesting
just now concerning the Mayoralty
situation over in Newark that the
Democratic organ, the Advocate, de-
parting from its time-honored custom,
refuses at any price to publish the
announcement of the candidacy of any
man for Mayor. The city seems de-
termined to vindicate itself in the eyes
of the state, but there is considerable
difference of opinion as to just what is
the best method of procedure.

DEMOCRATIC CENTRAL COMMITTEE
MEETING JULY 29

At the last meeting of the Democratic County Central Committee on July 1, adjournment was had until Saturday, July 29, at which meeting attention will be given to ascertain whether in the various townships, wards and precincts petitions for nominations have been filed with the County Board of Elections for the several officers to be elected the present year.

For this and other important business to be transacted it is desired that a full attendance of the members of the committee be had on that day. The meeting to be at 1:30 p. m.

HOW ROOSEVELT
SWIPES TAFT

Theodore Roosevelt in the Outlook criticizes the Taft administration for eliminating 13,120 acres from the forest reserve about Controller Bay, Alaska, thus making monopolistic control of this important outlet possible.

The article deals with the Alaskan coal land problem. Roosevelt takes the ground that it is unimportant whether there was impropriety in the way the Controller Bay land was eliminated, or how R. S. Ryan acquired it. The important thing, says the Colonel, is that the land was eliminated.

He declares two factors to be responsible for retarding progress in this direction, "great capitalists who wished to develop Alaska by making enormous fortunes for themselves outside of and in defiance of the law," and the congressmen who "under pretense of hostility to the corporations, decline to permit the passage of legislation which will enable the corporations to do their work honestly and to develop the coal fields with a fair profit to themselves, while doing justice to others."

Referring specifically to the Controller Bay case, Roosevelt says: "In this connection, I wish also to call attention to the essential facts as regards the Controller Bay situation. Controller Bay under actual conditions, offers the only chance, or, at any rate very much the best chance, for a free outlet from the great Behring river coal fields. It was the imperative duty of the government service to keep this outlet free and not to dispose of it to any individual or individuals.

"The government should have held this land in perpetuity, permitting its use by any individual or corporation only under conditions that would subserve the general public interest. Unfortunately, the interior department last October eliminated from the government reserve not only the 320 acres, the elimination of which was mistakenly recommended by the agricultural department, but 12,800 acres."

BENEFITS OF
UTILITY TAXES

Attorney John H. Clarke of Cleveland, counsel for the big Nickle Plate railroad is authority for the following statement which will be good news to farmers, small home owners and other taxpayers of that class: "Small taxpayers have been contributing five-sixths of the entire cost of government in Ohio. Railroads and other utilities have paid the one-sixth. Next year, the railroad and utility companies share will be doubled. The home owner and small taxpayer will save one-fifth of former payments, and his portion of the total tax payments will drop two-thirds."

This estimate was made after he appeared before the State Tax Commission to represent the Nickle Plate at a

hearing to fix the value of the property.

As a matter of fact, the saving to the owner of intangible property will be much greater, as other utilities will pay considerably more taxes.

It is expected that when the tax commission finishes with the new tax duplicates, these interests will show valuation increases in keeping with the average gains of three and four hundred per cent being made in utilities. Owners of all classes of property will come nearer to paying on an equal basis next year than they ever did before.

Attorney Clarke said that this year the Nickle Plate paid \$117,000 in taxes in Ohio. Next year, the Nickle Plate's total tax payments will be \$251,000. Practically that entire class of property is up against the same situation. Last year, the Nickle Plate's Ohio tax value was \$4,700,000. This year it has been put down for \$25,100,000, the state's share of a total estimated value of \$55,000,000 for the entire road.

A TIRED HEART.

Oh, soothe and caress me! My labors distress me, I'm tired of my striving, so endless and vain; so long to me, dearie! I'm weary, so weary! My bosom is filled with the torture of pain! I'm tired of the struggle! I'm longing to struggle against your kind bosom and look in your eyes! So long have I waited the blooming, do-rotted, persistent, immoral, industrious flies! When first with my swatter I went forth to slaughter, my heart was aglow with a Homer-ic fire; I luffed 'em and soaked 'em, and mashed 'em and cranked 'em, and thought of my labors I never should tire. But where is the profit of sending to Tophet a pitiful hundred of pestilent flies? A million come buzzing in place of each dozen you sent to the graveyard—a blight on their eyes! It may be the sakes is far distant ages will think up a method of laying them low, but this plan of swatting by hand is too rotten. We've more flies today than we had long ago. So soothe and caress me, and fondle and bless me, I'm weary and broken, I long for repose; I'm sad and I'm loony, so sing Annie Rooney, and comb out my whiskers and tickle my nose.

HITCHCOCK HAS
POSTAL SURPLUSIt Was Accumulated by Cutting
Down Deliveries.

END OF SESSION IN SIGHT.

Congress is Likely to Adjourn Soon
After Vote is Had on Important
Bills—House Will Pass Tariff Meas-
ures if Senate Will Accept Them,
Declares Leader Underwood.

By ARTHUR W. DUNN.

Washington, July 26. — [Special.]—There seems to be little doubt that congress will adjourn soon after the bills scheduled to be voted on are out of the way. Of course the house has it in its power to compel the senate to remain, and while there has been talk about staying here and passing tariff bills, it is almost certain that defeat of the tariff bills in the senate or by veto of the president will be all that the Democrats of the house will want to bring about an adjournment.

"If these bills are passed by the senate," remarked Lender Underwood, "we will continue to send over the different schedules." It is possible to wind up the session by Aug. 10.

Postal Surplus.

"Postmaster General Hitchcock has accomplished more than any of his predecessors," declares a paper which is always friendly to the administration, and then it tells about the surplus which has been accumulated.

These statements are not particularly gratifying to Messrs. Meyer, Cortelyou and Wynne, who were Hitchcock's immediate predecessors, especially as it is understood that the surplus has been accumulated by cutting off a number of postal facilities which the people have heretofore enjoyed. For instance, where there were three deliveries of mail there are now but two, and other curtailments have been made in proportion. Complaints have been caused by this, but after the people become accustomed to the new order of things they may be satisfied.

Shy Two Votes.

Democrats of the senate are shy two votes by reason of the failure of the Colorado legislature to elect and the determination of Hoke Smith of Georgia not to qualify until next December. The minority party does not like this state of affairs. There are oftentimes very close votes in the senate, and two votes might turn the scale.

If Colorado had been represented the Democrats would have had their way on the resolution for the direct election of senators and would have defeated the Bristow amendment. On other votes the Democrats, with certain Republicans voting with them, would have been successful with a full representation.

The "Extra Month."
There are thirteen months in every year for the congressional employees. Every year a provision is carried in one of the appropriation bills for an "extra month's salary." Two years ago a second "extra month" was given these employees because congress had three sessions. Now an attempt is being made to put over a second "extra month" for the present special session, in face of the fact that salaries of congressional employees continue during the long vacations of congress, whether they are employed or resting.

"Queer Things."
"We see some queer things here," remarked Senator Highburn of Idaho one day when he was addressing the senate and there was scarcely any one giving him attention and few senators were present. "The only thing I have not seen yet that I think would be a novelty would be to see some senator go out while he was speaking. Every other phase of neglect and dilatory tactics has been presented in connection with this legislation."

He was speaking of the reciprocity bill.

"To the Victors Belong the Spoils."
Leaders on both sides of the house were playing petty politics with each other by making charges and counter-charges and asking questions designed to be embarrassing.

"Why were you so prompt in appointing committees if you were not going to do anything?" asked Payne. "One reason was we wanted to get the Republican incumbents out of their places," frankly answered Fitzgerald.

"That is committee patronage," said Mann. "That was just a grab job."

"I merely wanted to say," injected Rucker of Missouri, "that if the purpose of appointing committees was to give the Democrats patronage somebody has forgotten something."

This raised a laugh, for Rucker was even denied a clerk for his committee, which has been very active during the session.

Insurgents Lined Up.

For months the insurgents in the senate were blamed for delaying the Canadian reciprocity bill. As if to refute the assertion three Republican insurgents took the floor one day, and two, Brown and Weeks, supported the measure, while a third, Kenyon, said he did not believe it was very harmful, but would vote against it because the farmers feared it.

AN APPEAL TO
TICKET HOLDERS
BY BALL CLUB

President Robert Read of the Ohio State League, wishes the Newark Central league club to have the \$200 in the hands of the Board of Trade for ticket books purchased for the old club, with which to rebuild the grand stand, or to help in any way that may be deemed best. It is urged on behalf of the Newark Central League baseball club that persons holding tickets for admission to the Ohio State League games, and for which they paid \$5, waive their right to the ticket, and that the money—which is now in the hands of the Board of Trade—be turned over to the Central league club in Newark, and used to assist in rebuilding the grand stand destroyed by fire Monday morning. Secretary Wells has stated that this means can be used for ten days, and if no claims are filed that he will consider that the plan is favorable to the ones holding tickets, and will turn the money over to the Newark Central league club. Again the request is urgently made that all holders of tickets waive their rights 25-10c.

MUSKINGUM COLLEGE.

The work of this institution continues through July and until Aug. 11. The summer school now in session began June 19 and closes Aug. 11. A strong faculty of 30 members is carrying on the work with great efficiency, about 60 courses running. The students are here for business and are of a class that accomplishes things.

The special pedagogical lectures by Prof. Hawkins have been well attended and full of interest. He will be followed in the same line by Prof. E. E. Smucker and former State School Commissioner Zeller.

The Thursday lectures have been a feature of special interest and are of a popular character. The closing entertainments of the course will be put on by summer school talent. The Choral Society, under the direction of Prof. Speck, will render the operetta, "The Captain of Plymouth."

The cast includes 50 people. The School of Expression, under the direction of Prof. James, will give the play, "A Gold Mine."

The new campus presents a busy scene these days, as work has been begun grading the driveway, grading the athletic field and excavating for the new auditorium and Christian Association building. This building is to cost not less than \$30,000 and the architects are now perfecting the plans. The contract will be let as soon as the bids are all in.

The originator of a new kind of pavement that is proving very popular in Ann Arbor, Mich., and that is cheaper and apparently better than other kinds, was here this week. The people of the village have become interested in the pavement of a mile of the main street, and the college authorities have decided to use the pavement on their drives through the new campus.

STATION WILL SEND EXHIBITS TO COUNTY FAIRS

Editor Advocate: We are at the Ohio experiment station at Wooster a few days, getting the exhibits ready and learning how to explain them at the different county fairs. Three exhibits will be sent out and 25 fairs visited. We begin next week with Brown county at Ripley and Clark county at Springfield.

The exhibits will be pretty much as last year, but few striking new features having been added. I will visit Mr. Ballou's work in South-eastern Ohio before going to Brown county, so as to be able to answer questions about orcharding in that section of country.

It was very pleasant on my trip here Sunday to note that the great drouth which we about Newark have been afflicted is not widespread. We could note the difference on reaching Vanatta, but we would run into strips of country, not very wide, where they had been afflicted as we had been.

Last year about Wooster they had a severe local drouth about this time, continuing on late in the season. This year, while the rainfall has not been heavy, it has been seasonable. Early in July they had one and three quarter inches at one time and three quarters of an inch Sunday night, with several showers in between times, so their pastures are looking quite good and the corn at the station bids fair to make an elegant crop.

It is remarkable how uneven the corn crop is over the country. In the sections where they have had rain you will see one field looking quite good, while the next field will be very uneven, or it may be so small that there is no possibility of its making a crop, even if the season should be exceedingly good from now on.

I visited Director Thorne's young orchard, just north of Wooster, art of it has been planted five years. Apples, with peaches as fillers. The peaches had a fair crop last year and this year they are quite full. The main part of the orchard, however, has been planted four years, Grimes Golden 26x10 ft., with Gano as filler, making the trees now stand 18x20 feet. Quite a few of the Gano's have a dozen or more apples on this year.

AGRICULTURE IS A SCIENCE

Washington, July 26.—Hail to the tiller of the soil. He has won the respect of the world. Perhaps you have noticed that it isn't so common to deride his occupation as it used to be before Uncle Sam discovered it to be a science. Now young men are flocking to the agricultural schools and colleges and many of them are graduating into professorships, or into positions as experts with the government. One of the latter has just returned to Washington after spending two months in Spain and Sicily investigating lemon growing. He is G. Harold Powell, whose work for the Department of Agriculture in the investigation of causes of fruit decay in cold storage and in transit attracted such wide attention. The citrus fruit growers of California held his talents in such esteem that they tried to get him to go out there. When they got up to an offer of \$10,000 a year salary he succumbed, and he is now secretary and manager of the Citrus Protective League of California, a model business organization of agriculturists, which has been fighting for a tariff on lemons that will permit the industry to survive. Having secured that tariff, the organization is now combating the organized campaign of the Italian importers to have it reduced. The latter have raised a big fund to influence public opinion in this country and to affect legislation.

FREE TRIP TO OHIO STATE FAIR

A Good Time and Expenses Paid.
One Boy From Each County
Made Happy.

The State Board of Agriculture will invite one boy from each county to be its guest at the Ohio State Fair, Aug. 28 to Sept. 1. Farm boys between the ages of 15 and 20 are eligible to make application. All expense of this trip will be paid by the State Board of Agriculture.

Free Bed and Board.

Each boy must work four hours each day on the fair grounds, sleep in a tent and eat three meals a day. He must visit every department of the Fair, and write in a note book the things which most interest him. The State Board of Agriculture desires to emphasize the educational value of the State Fair. The boys can read their notes at Farmers' Institutes.

Safe Trip.

This will be a safe trip. Permission will be given the boys to visit the penitentiary and other state institutions. Columbus is an interesting city. Adjutant General Weybrecht will detail some of his best officers of the National Guard to erect state tents, furnish cots, blankets and look after the comfort and safety of the boys.

Learn Farming.

No boy should make application for this honor unless he actually wants to learn more about agriculture. The State Fair costs \$100,000 and is worth many times that sum to the farmers of Ohio if they will take advantage of its lessons. The following named persons will select the boy from each county.

Presidents of the following.

County Fair, Farmers' Institute, School Examiners, Teachers' Institute, County Commissioners, all other Farmer Organizations and Pledge County Sunday Schools and the Masters of each Grange, Newspaper Editors and Secretaries of County Fairs.

Saturday, August 19th.

Each of the above persons to have one vote at a meeting to be held at the court house, Saturday, Aug. 19, at 10 a. m., standard time. Said meeting to select its own president and secretary, who shall certify the name of the boy selected and also the name of a second and third boy as alternates to come in case the first boy cannot attend.

Come On Time.

A majority of those present may elect and certify. The boy should arrive at State Fair Grounds by noon of the first day of the Fair. They will be expected to stay until Friday afternoon of the Fair. Tents will be ready Sunday, Aug. 27.

Good Conduct.

The work will be light, such as keeping grounds and buildings in order, messenger service for officers, assisting in show rings, watching and explaining exhibits, etc. Good conduct will be required. No profanity or dissipation allowed. If possible a visit to the great Hartman Stock Farm will be arranged. Lectures will be given by leaders prominent in Agriculture, Granges and others. Camp fires and good programs for evenings.

The Show Ring.

Unbecoming conduct will cause dismissal and return home at boy's expense. Each boy will be required to spend some time at the show ring of each live stock building and watch the judging and awarding of prizes. After returning home, each boy may write an essay of not more than 500 words and send it to the Secretary of the State Board of Agriculture. The essays will be judged and prizes awarded.

Uniforms.

The boys will be in charge of careful and competent persons during their stay in this camp. Each should bring with him a pair of light brown overalls, a colored shirt and a red handkerchief, which will be worn in work hours.

Important.

Application should be made in the boy's own handwriting and filed with the President of the Board of County Commissioners, on or before Aug. 19, 10 a. m. A copy of the application should be mailed by the boy to A. P. Sandless, secretary State Board of Agriculture, Columbus, O. Blank application forms will be sent from Columbus, upon application. Application blanks will also be sent to each person entitled to vote, and boys can secure them from those persons.

Boys, get busy. For further information, write

A. P. SANDLESS, Secretary, Columbus, Ohio.

FIREMEN RESCUED SIXTEEN FAMILIES

New York, July 26.—Sixteen families, numbered among whom were 28 panic stricken children, were rescued by firemen and police from a big double decked tenement house in Brooklyn when it caught fire early today. Many of the inmates were assisted along the corridors of the burning structures and had narrow escapes from death. The fire loss was very small.

Some people look so far into the future as completely to lose sight of the present.

Daddy's Bedtime Story

Clever Monkey Who
Used a Dog as His
Saddle Horse

"I've often called you two monkeys," said daddy one evening after Jack and Evelyn had settled down for their bedtime story. "But really I don't think you are as clever as a monkey my daddy had when he was way out in India."

"What was his name?" asked the children in one breath. "Oh, dear, I forget," replied daddy, "but he always looked so mournful, especially when he was fixing up some extra bad trick, that he should have been called Job. That's what we'll call him, anyhow, for this story."

"All right, daddy," replied the children. "Who was Job, by the way?" asked daddy suddenly. "He was the man in the Bible," said Evelyn, "who was so patient even though he suffered awfully from boils."

"Splendid," said daddy. "But why didn't you answer me, Jack?" "Ladies first, daddy," answered Jack. "That's what you've always taught me."

"All right, you rascal," laughed daddy; "you caught me that time. Now for our monkey friend. He was only a baby when my father got him, but he learned things so fast that he was really educated before he was a year old."

"My father was traveling for a firm that made a specialty of rugs, and he often had to go way up in the Himalaya mountains to get strange and beautiful bits of weaving to send to America. On one of these trips he took Job along, letting him ride in his palanquin, which is an armchair on two poles carried by two men."

"But Job was so restless and so mischievous that my father became angry. The little chap would tear the cushions and bite off the buttons and chatter at the men until it was settled that he should walk."

"And what he did for one whole day, and then he sat down to think. After while he made friends with one of the dogs that go with every party in India and gave him half his supper. Next morning he gave Mr. Dog half his breakfast and then jumped on his back and rode comfortably along with the little caravan."

"And so it kept up for the other three days of the march, and Job didn't lose anything by dividing rations with his dog-horse, because everybody in the party gave him lots extra to eat."

"So you see," said daddy in conclusion, "that when I call you monkeys it is really a compliment after all."

WOLGAST'S MANAGER CHANGES HIS MIND

San Francisco, July 26.—Tom Jones, manager of Ad Wolgast, whom many sporting writers here quoted as opposing the Ad Wolgast-Packey McFarland Milwaukee fight with all the vehemence he could use is now on his way east, having seen a great light. Before he left, he tried to persuade the sporting writers to whom he had opposed the match, that they didn't understand him correctly. He said his only objection was to permitting McFarland to weigh in at 133 at 3 o'clock instead of 5 o'clock. Jones' advice to Wolgast in the matter of matches is given often and never accepted. The Michigan wildcat has a mind of his own.

NO AUTHORITY TO REGULATE SPEED OF AUTOS

Columbus, July 26.—That city council in Ohio has no authority to pass ordinances regulating the speed of automobiles is the effect of an opinion handed down by Attorney General Hogan today. Hogan holds that the legislature only has that authority and that the present speed laws passed by the legislature must be accepted in all parts of the state.

OHIOAN MUST RESIGN OFFICE PAYING \$5000 PER

Columbus, July 26.—The attorney general's department and the governor's office today decided that William A. Grievous of Columbus is ineligible to serve as a member of the new state board of compensation awards to which he was appointed by Governor Harmon several weeks ago. It has developed

that Grievous is not a naturalized citizen of the United States. He will be asked to return his commission this week and his successor will be appointed on the return of the governor from Michigan. The position pays an annual salary of \$5000.

TELEGRAPHIC TIPS

New York: When 5000 fancy leather goods workers, mostly girls, went on strike, the employers hired a group of husky women guards to offset the strikers' pickets. Four husky ladies put a man picket out of business.

Middletown, Conn.: Because bridegrooms are growing more thrifty and save on the clergymen's fees, Rev. J. A. Cortright asks that the ministers be given 25 cents of the marriage license fee.

Philadelphia: Miss Dora Keen, a noted climber of the Alps, is fitting out an expedition to scale Mt. McKinley to search for Dr. Cook's records.

Colorado Springs, Colo.: Four medical scientists who have stationed themselves on Pike's Peak declare the 14,147 feet of altitude make the blood 40 per cent purer than at sea level.

New York: The 100 automobiles of the city cost \$220,505.78, and were repaired last year at an expense of \$176,570.91. Joy riding costs the city a pretty penny.

New York: Because he did his wooling with an automatic pistol, Albert Appleton is in jail. Sophie Steinbrink charges that for four days he camped in front of her house, gun in hand.

Forsyth, Ga.: A gold watch bearing the monogram J. T. was found in the stomach of a giant alligator killed near here. Residents believe this explains the disappearance of Janet Thornton, 12, two years ago.

Cleveland: To save her chauffeur from a 45-day jail sentence for robbing Mrs. James Goodrich Measlet confessed in police court that she was engaged to him.

Lockport, Ill.: Disappointed in love, Elsie Pelz, 26, poured gasoline over her clothing, locked herself in a shed and applied a match. Firemen found her dead. She had tried to get out.

Chicago: Women sympathizers of striking peddlers pelted a squad of police with eggs so earnestly that the officers withdrew and left the women dominating the situation.

Chicago: Mrs. Skrwaak, walking with her husband, met two hold-up men. She yawned, put her hand to her mouth, and saved two valuable diamond rings.

NO CHILDREN FOR THE SUNDAY SCHOOL AND PASTOR RESIGNS

Cincinnati, O., July 26.—Rev. J. Herbert Thomas, of the Clifton Methodist church, has an excellent congregation, rich, cultured and very "desirable." "But there isn't enough to do here," says the pastor, who is going to quit after two years at the church. "The men are deeply engrossed in business and the women have numerous social activities. "I like Sunday school work but why, we haven't enough children. There are only four. "What I want is a congregation with poor people and plenty of children."

CONFESSED TO DOUBLE MURDER

Olympia, Wash., July 26.—Confessing that he is a murderer, but declaring that he has no recollection of the crime, J. H. Wilson, section foreman on a railroad, today detailed to the prosecuting attorney how he killed Archie Coble and his bride three weeks ago. The couple were found in their bed with their heads split open with an ax. Wilson said that before the murder he heard a voice say "Why don't you kill somebody?" and from that time he was afraid to sleep in the section house because he feared he would murder some of the men. Following the murder Wilson tried to throw suspicion on several men who had been arrested and tried to incite a mob to lynch one prisoner, an aged maniac.
